

INTRODUCING **JASON PRIBYL**

**Join Jason Pribyl as he chases his
in car dreams in the
USF 2000 Championship Series.**

ABOUT JASON...

Jason started racing karts at 6 years old in 2012 as a way to hang out with his dad. The Indy Car dreams came later. At 7 he was racing karts on full size race tracks. As he progressed in skill, he started racing with several traveling series and began running multiple classes. He was often seen running from the scales to the grid to hop into a different kart for his next race. Jason attributes his ability to transition into cars to his extensive experience racing karts on the same tracks and his practice transitioning from one style of driving to another.

At age 14, 2019, Jason earned his SCCA full competition license and ran his first, in F1600, at the end of 2020.

The first weekend in that car Jason took 5th and 2nd in a very competitive field that included his teammate and 2023 USF 2000 Champion Simon Sikes, 2023 LeMans LMP2 Winner Josh Pierson, and F3 driver Max Esterson. Jason won the 2021 SCCA Northern Division FE2 Championship and finished 10th at his first SCCA Runoffs at Indianapolis Motor Speedway. His dream racing at Indy was fulfilled, now he dreams of doing it in an Indy car.

2022 was a year of testing in many ways. He tested in seven different cars and dealt with the struggles of preparing for a season of USF Juniors ultimately not being able to race it. Determined to continue racing, he moved to Mazda's Spec MX-5 Challenge Series for the second half of the season where he took third in the Northern Division. He switched gears at the end of that season to complete a very successful test in a USF 2000 at Indianapolis for the USF Pro Championships Fall combine. **Jason finished the final session of the weekend as the second fastest driver. This was his first taste of the path to Indy and reaching for that Indy Car dream.**

ABOUT JASON...

JP

Jason's 2023 season was also one of testing but with more positive results. He returned to SCCA, this time in a Spec Racer Ford Gen 3 to work on his race craft in this always large class. To add to his challenge, his car for the season still had an h-pattern transmission instead of the faster sequential upgrade. **Despite this he was able to put his car on the podium 8 times, including 3 wins.**

He was invited as the second driver for Rice Race Prep to help the primary driver win the F1600 championship. Jason fended off other drivers and pushed his teammate to be more assertive on the track while providing data analysis for the team. Their performance earned Jason and his teammate two of the four nominations for the Team USA Scholarship. Despite an impressive showing with the fastest laps of the day, in a car and on a track he had never driven before, Jason was not ultimately selected but his teammate was. He capped off his season at the 2023 USF Pro Championships Fall Combine at Indianapolis Motor Speedway. **Once again he demonstrated impressive and immediate success with just 10 sessions in the car clocking the 6th fastest time for the weekend. He's seeing his dream of Indy Car is possible by running top times with years less experience.**

CAREER HIGHLIGHTS

2023 Spec Racer Ford SCCA 12 Races, 3 Wins, 8 Podiums

- Spec Ford 3 Second Place SCCA Northern Conference Majors
- USFPro 2000 Testing
- One of four Team USA Scholarship Nominees

A decade of sprint and road kart racing winning many championships.

What else can you expect from Jason and Jason Pribyl Autosports?

- Professional conduct at all times from the team.
- Up close participation in the exciting world of racing.
- A newsletter with Information regarding our current events, plans, and race results.

What else would we expect from you?

- Promote your partnership with Jason and Jason Pribyl Autosports.
- Support Jason's social media campaigns of your products and services.
- Press release announcing partnership and events.
- Endorsement letter of Jason Pribyl and Jason Pribyl Autosports at the end of the season.

ENDORSEMENTS

"I was impressed with his maturity for his age, I think Jason would be a fantastic spokesperson, he's very well spoken, very mature, very professional race car driver, and he looks the part, he would be a very fine representative for any team, any agency, or any series out there"

~ Kelton Jago, Lieutenant Colonel US Army Special Operations Retired

"Jason really impressed us, he's a very talented young man, he's very focused and dedicated. He obviously wants to do this, works very hard, very coachable. He's been very fast and I think he's ready to win races at this level"

~ Bob Perona, Driver Coach Pabst Racing

"If any potential race teams or sponsors are interested in possibly having Jason race for you, I give my personal guarantee, Jason will make you happy, he will be there on time and be ready, I guarantee it"

~ Dave MacIntyre, Voice of Cup Karts of North America

"Jason is a very consistent driver and his performance is really good. He's a great driver and takes care of his equipment. I see him moving up on a regular basis over the next two or three years to be an Indy Car contender"

~ Ralph Howard Hanson Jr, Pegasus Marketing Group

"He's really really on top of his game, really well spoken, understands how to share information with the audience was really and it was really great to have him on the show"

~ Brian Bielanski, Voice of the SCCA
